Team 4-H Creative Arts

**Goal:** To create a more purposeful experience for young people in 4-H visual arts, clothing/buymanship, fiber arts and photography projects where they are team members accountable for each other to learn together, experience new activities together and grow through project work together. The team’s effort should focus on bringing out the science and engineering behind creative arts projects and dedicate time to community service and leadership.

**Teams consist of three (3) 4-Hers (no more, no less, per team)**
- Members may be of any 4-H age. (in fact, older 4-Hers are encouraged to partner with younger members for mentoring)
- Members may be from any club in Walnut Creek District.
- Members cannot be in the same household
- Members do not have to be enrolled in all creative arts projects, but all three members must be present at the same “team” Creative Arts related event to capture points.
- A 4-Her not enrolled in a Creative Arts project may participate as long as they are present with team members and actively learning and participating with his or her team
- No 4-Her may be on more than one team within the Creative Arts areas.

**How it works**
- Teams will post activities to a private Facebook group where all participants in Team 4-H Creative Arts are part of the group/can see the posts.
- Activities are captured in a picture with all three of the team members in the picture. A caption detailing activity, including where and what was learned must accompany the picture to count.
- Activity must be posted on the day it happened to be counted (within 24 hours of event). (No creative double posting of the same activity, please)
- Each activity with properly documented picture and story will count for points (see point system)
- If the top teams are close in points, there may be an interview process at the county fair to determine final placings.
- This is a creative arts learning opportunity, not specifically tied to one project area, but includes 4-H learning in the visual arts, clothing/buymanship, fiber arts and photography project areas.

☐ Bonus points given to teams with age diversity (senior 4-Hers mentoring junior/intermediate 4-Hers)
☐ Bonus points will also be given for activities that bring out science and engineering.

Points are awarded and tabulated by the Extension Office with the best judgement of the guidelines published. If rules must be adapted, participants will be notified via the Facebook group.
